**WAC 251-06-030 Interpretation of specifications.** The definitions in class specifications are descriptive. They are intended to indicate the kinds of positions that are allocated to the classes as determined by their duties and responsibilities and are to be used as a guide for the appointing authority in assigning, directing, and controlling the work of employees. The use of a particular expression or illustration of duties shall not exclude others which are consistent with the overall class concept but are not mentioned in the specification.
